

Dear All

**CASPA** has launched a **#CASPAstillstanding** campaign which includes:

- Daily online content on our [public Facebook page](#) such as videos of CASPA staff running craft/science/dance/exercise/singing activities for all age groups and storytelling (for younger children). Anyone can access these if they 'like' the CASPA Autism Online Facebook page.
- **Weekly Zoom group support meetings** for our 16+, Seniors (14-16yrs) and Tots parents (we are phasing these in so will add Inters (9-13yrs) and other club groups in the next two weeks).
- Facilitating and supporting our **older members to meet independently through virtual platforms** (last night a group of 8 of our young people shared the watching of a film for example) - to reduce social isolation.
- Continuing **contact with our members** via Parentmail, email, phone and social media to provide 1-2-1 support or inform members about any updates (Coronavirus guidance or CASPA services).
- **Online fundraising initiatives** including quizzes and 'gigs' from staff/supporters who are singers/musicians.
- Zoom group workshops as part of CASPA's collaboration with Bromley Mencap to deliver the **Bromley Well Autism Pathway workshop programme (to commence Thursday 1st April)** - open to all Bromley Well referred Autistic adults (16+).
- **Virtual meetings** for all other business - including today's presentation by our young advisors to the SEND Governance Board.

Please let me know if there is anything else you think CASPA could be offering or that anyone would like to collaborate on. We are determined to continue engaging with our members and other members of the Autism community in any way we can during this difficult time.

I hope you are all well - and HAPPY AUTISM AWARENESS WEEK!!

With regards

Helen Laryea-Dyer
