Dear Parent/Carer,

As we prepare for our busy summer period we would like to inform you of the services that you can use to purchase uniform. This year we will be celebrating our 25th Birthday and with the current pandemic, this Summer will be very different to any other Summer we have known. We want to reassure you that our first priority is to keep you, your child and our staff safe whilst purchasing school uniform. We therefore will have measures in place to ensure this. Customers are usually able to visit our store and shop at their own leisure but this year is different with restrictions and guidelines set by the government. As a result we will have social distancing measures in place, be limiting the number of customers in our store at one time and therefore only allow one adult family member per visit. Our fitting rooms will also be limited in use.

We offer a click and collect service and a delivery service, we would encourage you to take advantage of this option. This is available now - Please visit our website. Click and collect orders must be picked up from the designated point at the rear of our store. This is located on Juglands road opposite the Sainsburys carpark entrance.

We anticipate to open our shop to customers that need to visit the store on the 15th June. We will be scheduling appointments and encourage you to telephone and book an appointment. You can of course just arrive at the store, however there may be long queues and waiting times. The first appointments are now available, please call 01689821439 to book. **We urge you to take advantage and purchase early.** We will exchange unworn uniform up until 14th September. Our usual terms and conditions apply.

We would like to take this opportunity to thank you for your cooperation when shopping with us.

For and on behalf of Graduates Schoolwear.
